## MARINES IN CONTROL.

Order for Troops Is  
Rescinded.

President, on a Train, Hears  
of Terrible Situation  
in Nicaragua.

Tenth Regiment in Panama  
to Hold Itself in Readiness  
to Proceed.

Two More Cruisers En Route  
to the Scene of the Dis-  
turbances.

WASHINGTON (Wireless Line to The Times).—[Special Dispatch.] Orders dispatching the Tenth Regiment of Infantry from the Panama Canal zone to Nicaragua to reinforce the marines and bluejackets, were temporarily suspended by the War Department tonight by direction of President Taft.

The reason for the suspension of the order was the receipt of advice by the Department of State that the rebels in Leon have abandoned their determination to interrupt communication between Corinto and Managua, thus giving the marines an opportunity to reach the capital and intermediate points, and protect American interests.

Assurances have been given that the Navy Department with the present force, will be able to handle the situation until the additional marines arrive. The difficulty reported was the hostile attitude of the rebels at Leon and it was not deemed advisable to employ any force in reaching Managua with the comparatively small number of marines and bluejackets available for service.

Although the order has been suspended temporarily, the Tenth Infantry will be held ready to move at an hour's notice.

The preparations for dispatching the troops have been complete to the last detail and should conditions become worse, the order will be put in force again.

ON BOARD TAFT TRAIN.  
RESCIND OF THE ORDER.  
[BY A. F. NIGHT WIRE TO THE TIMES.]

ON BOARD PRESIDENT TAFT'S TRAIN (Rochester, N. Y.) Aug. 28. President Taft tonight rescinded his twelve-hour-old order directing the immediate dispatch from Panama to Nicaragua of the Tenth Infantry. From his private car in the Rochester yards, the President wired to the acting secretary of war to recall the order. A sufficient force of marines, the President said tonight, would be in Managua, the Nicaraguan capital, and Corinto, its principal seaport, early next week, to insure the safety of American lives and property.

The President's action tonight came at the close of a day spent largely in reading telegrams from State, War and Navy Department heads in Washington. The President expressed tonight, to friends on his car, the belief that there will be more than 2000 United States marines on Nicaragua by Tuesday.

MESSAGE FROM NICARAGUA.  
A long telegram tonight from the commander of the United States submarine fleet at Annapolis in Nicaragua waters said the insurgent leaders had given assurances that they would open the lines of communication from Corinto to Managua. The Nicaraguan government asked for assistance from the United States and stands ready to aid in opening the railway to the coast from the capital.

The message to the President said the rebels possess five locomotives and the government five. All other trains may be put at the disposal of the United States if necessary.

The recall of the order for the dispatch of the Tenth Infantry followed the receipt of this telegram. It was the President's anxiety.

The President did not conceal his anxiety tonight over conditions in Central America. In Managua and Corinto and other towns the situation is not especially dangerous to Americans, but in other parts of the country pillaging of all sorts has been going on.

The people of Nicaragua, the President was informed, are suffering untold horrors; and Americans are suffering, in many instances with them. To friends tonight, Mr. Taft said if the Senate had agreed to the proposed treaty with Nicaragua, which he advocated on his long trip last fall, the misery existing today would not have arisen. Under that treaty, the United States, he said, would have administered the country and the customs are about the country's only source of revenue, there would have been little to attract a revolutionist, who would not care to attack the United States.

FROM STATE DEPARTMENT.  
During the day, the President received several long messages from Acting Secretary of State Wilson. His order to the Tenth Infantry to advance on Nicaragua was issued in Beverly, just before he left for Columbus, Ohio, where he will speak tomorrow. Messages from Mr. Wilson

## Pacific Coast Troops May Go to the Border.

Reinforcements for Col. Steever

Are to be sent from the Pacific Coast division of the army, according to advice from Washington in the event Gen. Schuyler, now on the way to Nogales, Ariz., finds it necessary to have more men there. In the group are portraits of Col. Steever in command of American troops in El Paso, Tex., and Gen. Schuyler, with a snapshot of the soldiers on guard at the border in El Paso.

## MASSACRE OF AMERICANS THREATENED BY REBELS.

Atrocities Perpetrated by Insurrectos After Capturing Sonora Town of Oputo Include the Throwing of Dynamite Into Houses and Slaying of Women and Children or Inflicting Cruelties Worse Than Death.

[BY DIRECT WIRE TO THE TIMES.]

EL PASO (Tex.) Aug. 28.—[Exclusive Dispatch.] Anti-American and anti-foreign demonstrations will occur on September 14 in Mexico if the threats of Gen. Emilio Campa of the rebel army are carried out. At San Geronimo mines in Sonora, Gen. Campa made the statement that all Americans and other foreigners remaining in Mexico after September 15 would be slaughtered. This report was brought from San Geronimo by Thomas Holland, ex-governor of the Arizona force, and now a man of the mines. He is known throughout the southwest and his report is considered entirely reliable.

WASHINGTON INFORMED.  
It is further confirmed by Col. Emilio Kosteritzky who is here today on his way to Mexico City. Col. Kosteritzky says that he heard that Campa had told the foreigners in the San Geronimo district that he would not be responsible for what his troops did after September 15. Upon his arrival in Douglas, Holland reported to American Consul Dye of Agua Prieta and he at once communicated the threat to Washington. This is believed to be the reason for the message to Gen. Steever commanding the department of Texas asking if he would need more troops to handle the situation. Campa has a force of 400 men in the northern part of Sonora, and they are said to be in an exceedingly ugly mood toward Americans and anti-American demonstrations are feared at any time.

REMARKABLE FLIGHT.  
LONDON, Aug. 28.—[By Cable and A. P.] H. J. D. Aubrey, the aviator, flew from Hendon, Eng., to Harrogate, near Boulogne, France, in three hours and five minutes today. He carried as a passenger in his biplane Miss Mary Davis.

## IN HASTE TO BORDER.

Gen. Schuyler Is on  
the Way.

Reinforcements for Steever  
to Come from the Pa-  
cific Division.

Washington Fears Mexican  
Conditions Worse Than  
Generally Known.

With Orozco Crushed Main  
Trouble Is With Zapo-  
tistas in South.

WASHINGTON (Wireless Line to The Times).—[Special Dispatch.] Much anxiety to the administration is caused by the situation in Mexico owing to the apparent inability of President Madero to restore peace in spite of the fact that the insurrection proper was crushed. There is a feeling that conditions in the republic are more serious than has been believed and that the unrest among the people, which is manifest in American interests means potential disturbances of a grave nature. This belief is founded on reports to the State Department showing there is widespread dissatisfaction and that the Madero administration is making no material headway in restoring order.

RENEWED OUTRAGES.  
Renewed outrages of the rebels as a result of the disintegration of Gen. Orozco's army including the robbery across the Texas line near Culbraz and the theft of about 100 horses, a band of marauders have created a serious situation along the border and it is probable reinforcements will be sent to Gen. Steever, who is commanding the Department of Texas, and the patrol guard along the Rio Grande.

MAJ. GEN. WOOD, chief of staff, today wired Gen. Steever in regard to the urgency of additional troops to protect American property and maintain order along the border. In anticipation of a request for reinforcements, the War Department has taken steps to send troops from the Pacific division.

Gen. Schuyler, commanding the Department of California, was directed by Gen. Wood to proceed immediately to the southern boundary of his department and to take charge personally of the troops there, the activities of the rebels having extended in that direction.

REBELS ON THE BORDER.  
Remnants of the rebel army are scattered all along the American line and are committing numerous depredations. Citizens at a number of points have made appeals for protection, believing that their property is in danger.

WORST OUTRAGES.  
Sonora is now the scene of the worst outrages of the rebels, who are ravaging the smaller towns, burning buildings and railroad bridges and committing other acts of violence. A number of unconfirmed reports about American being outraged have reached the State and War Departments, but enough information has been received to occasion considerable concern. One report today, was that five bridges on the Mexican Northern Railway between Guzman and Sahual were burned by the rebels.

REINFORCEMENTS  
FOR COL. STEEVER.  
[BY A. F. NIGHT WIRE TO THE TIMES.] WASHINGTON, Aug. 28.—Gen. Walter S. Schuyler, commanding the department of California, was directed today by Gen. Wood to proceed immediately to the southern boundary of his department and take personal charge of the disposition of the troops there.

Increased activity of rebel bands on the border as the result of the breaking up of the main army of Orozco creating a grave situation on the American side of the line, and it is said Gen. Wood, chief of staff, wired Gen. Steever at Ft. Bliss today asking whether he wished further reinforcements for the border patrol.

The War Department, to be ready for further calls for troops, has taken steps to send troops from the Pacific division within a few hours after receipt of a request from Gen. Steever.

GOES TO NOGALES.  
[BY A. F. NIGHT WIRE TO THE TIMES.] SAN FRANCISCO, Aug. 28.—Gen. Schuyler left the Presidio immediately for Ft. Huachuca, near Nogales, Ariz., to make a personal investigation into conditions on the border. He will keep in touch with Gen. Steever and will also report direct to Washington.

REBEL ACTIVITIES  
ON THE WEST COAST.  
[BY A. F. NIGHT WIRE TO THE TIMES.] SAN DIEGO, Aug. 28.—The steamer Benito Juarez, Capt. Miranda, reported seized by Mexican rebels at Mazatlan, arrived here this morning. Capt. Miranda reports much rebel activity.

## ROOSEVELT FEARS THEFT OF "PRIVATE" LETTERS.

*Proclaims He Has Them All Hidden in a "Safe Place"—In Dread of Extraordinary Exposure the Colonel Shows Extreme Caution—Tries to Explain Why Loeb Has Remained Silent So Long.*

(BY A. P. NIGHT WIRE TO THE TIMES.)

YONKERS, N. Y., Aug. 28.—Col. Roosevelt declared today Senator Perkins, on his own testimony, should be expelled from the Senate. Col. Roosevelt had maintained this position, he said, in the letter to Senator Clapp, chairman of the Senate Committee investigating the campaign contributions, which he is preparing.

The colonel made this statement before he had read from what purported to be an extract from Mr. Perkins' testimony before Archibald the Standard Oil Company, to make a second contribution to the 1912 campaign, led the company encounter difficulties in certain quarters. Col. Roosevelt said that in his opinion this was an offer of protection from the government in return for a contribution and that it did not differ essentially from the sale of police protection in New York.

Col. Roosevelt said his controversy with Senator Perkins was turning into a capital campaign matter for him, as the latter's affair gave him the spring campaign.

"Let me be done for now," he said, "and I am inhibited to Senator Perkins for filling the chest with contributions again."

The colonel replied to inquiries as to why William Loeb, Jr., of New York, had kept silent so long regarding campaign contributions by saying that he had been reluctant to sum up his private secretary into a confession, but that when Mr. Loeb had told him to tell everything he knew about the matter.

Col. Roosevelt said that his file of letters bearing upon the whole matter had been removed to a "safe place" and that there was no danger of their being stolen.

**SENATOR SCOTT TALKS.**  
MAY TESTIFY AGAIN.

WASHINGTON BUREAU OF THE TIMES, Aug. 28.—(Special Dispatch.) Senator Nathan S. Scott of Virginia, who had charge of the speaking bureau for the Republican campaign in 1912 and was an active member of the Executive Committee, which had headquarters in New York, and today in connection with the campaign, said he had no contribution to the 1912 campaign to make.

"What I said to the committee is all that I will say," he said.

It is said that George W. Corbly, an Senator Scott will be recalled by the committee. They will interview him in detail about the Standard Oil contribution.

Explaining the contribution by George W. Perkins, Mr. Scott said: "I understood that the contribution by Mr. Perkins for my State was a personal matter and was not to be made public. The money was to be used in behalf of President Roosevelt and his election, and it was stated by Perkins that it was given to me in confidence and was not to be made public."

COLUMBIA (S. C.) Aug. 28.—Late returns received here give Jones

Charles returns are incomplete and while Jones appears to have carried this county by 500 it may require complete returns to decide. United States Senator Tillman, Atty. Gen. Lyon and State Treasurer, Carter carried the county.

**PERKINS QUIT THE RACE.**

United States Senator Declares Ill Health Prevents Him From Trying Again For The Top.

(BY A. P. NIGHT WIRE TO THE TIMES.)

SAINT FRANCISCO, Aug. 28.—George C. Perkins, United States Senator from California, announced his permanent political retirement today, in a statement made public here, in a statement made public here, in a statement made public here.

Senator Perkins' statement is in part as follows:

"In view of the fact that twenty-one holders of the Perkins estate in Oregon will vote for my successor, I deem it proper that I should state at this time that I shall not be a candidate to succeed myself in the United States Senate, or for any other political office. I am admonished by advancing years and failing health that I cannot afford to make such a campaign. My only ambition I have is to serve out the term of the Perkins estate in Oregon, which I have honored me with their confidence."

If Senator Perkins remains in the Senate until the expiration of his term, which will be March 4, 1913, he will have been in the Senate for twenty years. He has been appointed once and has been elected four times to the United States Senate and served two terms of four years each, beginning in 1896. In the Senate, from 1896 to 1900, he was the first Governor of California, under the new constitution.

Senator Perkins is now chairman of the Committee on War Affairs. During his entire service in the Senate he has been absent from his seat only twenty-two days.

## BOOTH FUNERAL SERVICE WITHOUT POMP OR SYMBOLS

(BY CABLE AND A. P. TO THE TIMES.)

LONDON, Aug. 28.—Funeral services for the founder of the Salvation Army, Gen. William Booth, were held at the Olympia tonight. In accordance with the traditions of the organization, they were without pomp or symbols of mourning, but were carried out with moving fervor and impressiveness.

A thirty-four thousand persons participated.

The body of the late general, in a plain pine coffin, rested high upon a white catafalque in front of the big platform across the end of the hall where the chief speaker of the organization, Mr. Booth, was seated, and where forty bands of music were massed.

The crimson flag of the "army of fire and blood," which was given to the general by the Salvation Army, was planted on the coffin. A bank of flowers, composed of the tributes sent by every and by many societies, were behind it.

The front row of chairs before the coffin were occupied by representatives of various parties and also the society for the King, several mayors in their robes and chains of office, a delegation from the stock exchange, clergymen and with the Protestant churches, and Jewish rabbis.

But the rank and file of the great "army of fire and blood" were the plain people, for whom the army works and of whom it is composed. The most solemn moments of the long service were when the coffin was borne along the center of the hall to the sonorous music of the "Dead March" in "B-flat."

A small procession, representing many branches of the army's activity, carrying the flag of their respective countries, preceded it.

Every seat on the floor and in the galleries was taken when the service began and thousands of persons were bled around the outskirts of the hall, half of whom could not see over the shoulders of those in front but who could hear and take their part when the hands began with the revival hymn, "The Better World," the voices took up the strain. Then every one bowed in silent prayer.

The hands broke into the Dead March at the conclusion of the prayer and the thousands rose and turned toward the far entrance, where appeared a cluster of white-tipped flags.

Amid reverent silence the catafalque was wheeled along the aisle to the platform in front of the platform, where its escort broke to the right and left and mounted the steps. Brewster Booth himself reached the coffin where he fell to his knees and buried his face in his hands. The assembly then sang:

"Dear Saviour, I can Ne'er Repay The Debt of Love I Owe."

Commissioner Lawley, the late general's right-hand man, made a brief eulogy of the general and this was followed by the hymn "Praise Me Not, O Loving Saviour."

Commissioner Adelaide Cox offered prayer and with a great murmur of voices, everyone repeated the Lord's prayer.

A brigade of Salvation choirs sang "When the Roll is Called in Heaven and the Hosts Shall Muster Themselves," which was followed by the singing of another hymn. The congregation then read silently from books of prayer and the late general's writings, the reading being interspersed by the singing of children and other by all the women in the hall.

activity along the west coast of Mexico, and when the Benito Juarez cleared from Matamoros, the gunboats Guerrero and Tampico were guarding the port. "The Mexican government is making every effort to prevent the smuggling of arms and ammunition along the west coast," said Capt. Miranda. "The Tampico and Guerrero are manned by loyal crews and have done good work in preventing smuggling and in quickly transporting troops and ammunition to the different danger zones along the coast."

The fact that there was a demonstration aboard the Benito Juarez the day the Guerrero arrived at Matamoros with troops is given as the cause of the report that both the gunboat and steamer had been seized.

**REBELS PREVENT RAILWAY REPAIRS.**

(BY A. P. NIGHT WIRE TO THE TIMES.)

JUARAZ, Aug. 28.—Rebels operating about 100 miles south of Juarez are preventing the repair of the Mexican Northwestern Railway on which they burned several bridges.

Reports from South Mexico, so alarming as to make the danger of American intervention in that country greater than ever before, have been received in Washington. So serious was the situation reported to President Taft, that, in discussions with members of the Cabinet and others recently, he has expressed the gravest fears of necessity for far more drastic action on the part of the United States than has yet been taken in Mexico.

"It is stated that, while the operations of Gen. Orozco and his men in northern Mexico near the United States border are threatening to a degree and injurious to American interests, the most serious phase in the situation lies in the conditions existing in the southern part of the country. The most horrible tales are being told of butcheries, mutilations and tortures, a few of which are reaching the United States. The entire southern half of Mexico, it is stated, is falling into a state of anarchy and anarchy is worse than anything that has occurred in the northern part of the republic."

The woman of the Republican party said: "Elect Taft and keep peace with Mexico. Even a small border war would entail terrible expenses and would mean the loss of the women of the country do not want war."

I could clean Sonora of rebels," declared the Russo-Mexican soldier. "I am negotiating with the Department of War regarding the formation of a group of men which I will select. The rurales of the old government are unable to use at all the equipment of the modern revolution."

Col. Kostelitzky comes directly from Nogales, Ariz. Reports there are 500 rebels operating along the southern Pacific of Mexico just south of Magdalena, where he was stationed with only 300 men.

Lumber Firm that Sells to "Unethical Dealer" is Crowded to Wall Toward Government Writ.

SEATTLE (Wash.) Aug. 28.—Evidence purporting to show how lumber manufacturers and wholesalers were kept informed as to what retailers in the Middle West were considered "unethical" and what firms were supplying them with lumber was introduced at today's hearing of the government's anti-trust suit against the Northwestern Lumbermen's Association. A. P. Becker of Seattle, secretary of the Pacific Coast Shippers' Association, was on the stand at the afternoon session and identified much correspondence that passed between him and William G. Morris of Minneapolis, secretary of the Northwestern Lumbermen's Association, and A. L. Porter of Spokane, secretary of the Western States Lumbermen's Association.

Through this correspondence, which told of the shipment by various manufacturers and wholesalers on the Coast of lumber to "unethical dealers" and mail order houses in the Middle West, the government sought to show that a complete line of communication was maintained between Mr. Morris and Porter and the manufacturers. Porter on the Coast. It was brought out, were regularly advised by Mr. Becker through circulars of the standing of retailers in the Middle West. Copies of these circulars were introduced as evidence and were identified by Mr. Becker.

As the morning session Mr. Elias told how the Western Washington Lumber Company lost its business and went into the hands of a receiver after it became known that the company had sold a case of lumber to J. W. Trust, a consumer at Cascade, Tenn.

## ODDITIES OF PAPER MONEY.

Claims Against Nicaragua Are Piling up High While Currency Is Depreciating Rapidly.

BY A. P. MONTGOMERY TO THE TIMES.  
NICARAGUA, Aug. 28.—American claims against Nicaragua are almost wholly represented by J. and W. Seligman & Co., and Brown Bros. & Co., who, several years ago, received a charter to establish in that country a national bank in which the home government was to be a large stockholder.

These bankers also offered to loan Nicaragua \$1,000,000, subject to the approval of the Nicaraguan Congress and the Congress of the United States. The latter withheld its approval, whereupon the bankers made a temporary loan of \$1,000,000 to meet Nicaragua's more pressing needs. For this loan, the bankers received as part collateral the right to collect customs at all Nicaraguan ports, naming their own representatives.

Shortly after the present revolution broke out, it was discovered that some \$200,000 of Nicaraguan paper money, representing by reason of its delivery under the terms of the loan of United States currency, had been issued, presumably by the revolutionists, without the knowledge of the government.

Many claims of various characters are pending against Nicaragua, the largest being that of an English banking syndicate for about \$15,000,000. Other claims include demands arising from mining, industrial and railroad concessions, and of which are understood to have been revoked by the general law commanding the revolutionary forces.

## TEN-CENT MILK FOR CHICAGO.

New Ordinance Requiring Strict Inspection and Sanitation Forces Rise in Price.

CHICAGO BUREAU OF THE TIMES, Aug. 28.—[Special Dispatch.] The price of milk will go up in Chicago within a few days, it is expected, according to an interview today with J. P. Oiler of the Milk Producers' Association. The rigid inspection of dairies, according to the city's new ordinance, is the cause given by Mr. Oiler.

"Cost of production under the new ordinance increases the dairy expense of the farmer and for that reason our hope of directors have voted the increase," said Mr. Oiler. "Milk can now be produced at any profit for the price paid to farmers last winter. The new ordinance has added numerous expenses to the 4000 farmers who ship milk into Chicago from Illinois, Indiana and Wisconsin."

The new ordinance calls for weekly inspection of the dairies, certain specifications for cleanliness and pasteurization where conditions are bad.

NEW YORK BUREAU OF THE TIMES, Aug. 28.—[Special Dispatch.] R. W. Williams, division engineer in charge of the building of the Pacific section of the Panama Canal who arrived on the Colon for a month's leave of absence brought interesting reports of work on the "big ditch."

In a general way, the whole canal proper will be completed by approximately the same date. This does not mean, however, that the terminals will be finished, but work on them will be completed by the date of the official opening."

"The plans for the terminals have been completed and work on them is under way. The plans provide for about 1000 feet of docks, a big dry-dock and coaling stations. There is also a large terminal basin to dredge at Balboa."

"There won't be any water in the canal this winter except that Gatun Lake will have its fifty feet, so that the yachtsmen will be exposed as hitherto. Col. Goethals wants water in the canal by July 1, 1915."

## COMING TO THE RIGHT PLACE.

CINCINNATI (O.) Aug. 28.—[Exclusive Dispatch.] Plans for forming an extensive real estate business in Cincinnati and to remove his family to Los Angeles, where he will go into the building business, are being made by Henry Buckart, City Treasurer. While this official was compiling his figures, other department heads were sending to E. Tracy, City Comptroller, their estimates on re-arrangements to compensate for \$2,701,000, which has been lopped from corporate revenues, causing the present straits. Practically every department, except that of Henry Erickson, building commissioner, proposes to reduce the number of employees and expenses. Mr. Erickson is building a new department in profitable to the city in proportion to the number of inspectors he keeps working. The millions which City Treasurer Buckart has distributed in funds, which cannot be touched except for particular purposes.

## VICE CRUSADE BY WOMAN.

Two Police Magistrates Are Cited Into Court to Answer Charges of Malfeasance in Office.

CHICAGO BUREAU OF THE TIMES, Aug. 28.—[Special Dispatch.] Miss Virginia Brooks took another step in her fight against vice in West Hammond today when she appeared before County Judge Owens and obtained an order citing two West Hammond police magistrates into court for alleged irregularities. The men are Frank Green and Charles Wittenberg. A subpoena duces tecum was issued by Judge Owens and immediately served on Green and Wittenberg.

Charges of malfeasance in office, bribery, misappropriation of county funds collected as fines and other irregularities were made by Miss Brooks.

Reports reached Ogden Hoffman today that women of West Hammond, followers of Miss Brooks, had threatened to arm themselves with spades and shovels the body of Esther Harrison, a woman alleged to have been murdered. The coroner, however, says such a move is unnecessary, and that if sufficient evidence is presented to him he will order the body exhumed for an examination.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## FIRE FLASHES UP IN SPOTS.

Flames Break Out in Fresh Places in Mountains.

Additional Men Hurried to Van of Conflagration.

Mexican Seriously Stabbed by White Men.

PARADISE, Aug. 19.—Although the Devil's Canyon fire appeared last night to have died down, it is under control, reports more alarming were received from both Sturtevant's Camp and the ranger's cabin in the West Fork.

According to information gained at these places by telephone, an exhausted crew of fire-fighters is working with might and main to keep the flames out of the house of the Devil's Canyon, which is filled with dry brush, and where, if the fire once gets a start, disastrous consequences may result.

The headquarters at Pine Flat, which had been maintained since the fire started, were abandoned last night and new headquarters were established at the head of the Tejuca Canyon. Here a force of fifty men spent all of the forenoon and part of the afternoon constructing a fire-break to keep the flames from topping the ridge and getting from Devil's Canyon into the Tejuca. At 4 o'clock in the afternoon the fire swept across and all of their work went for nothing.

Later last night they were cutting another fire-break on the slope of the mountains. Here they hoped effectually to check its progress.

Still later reports had it that they had apparently succeeded in clearing where the brush had formerly been burned off sliding them.

These men when last heard from were physically exhausted, but were striving desperately to hold out until relief should come.

Ranger Jackson, who is stationed at Monrovia, at 8 o'clock last night passed through Sturtevant's Camp with a party of fifty-three men, and there were at the same time on their way to the head of the Tejuca by the way of Mt. Lowe, making seventy-five fresh fire-fighters in that locality.

Another train of pack animals, carrying provisions, passed through Sturtevant's Camp late yesterday afternoon. They carried 1200 pounds. There are reports to be plenty of provisions on hand at the new camp in the Tejuca, which is about four miles south of Pine Flat. Devil's Canyon extends north and south and the Tejuca east and west, and if the ridge that is common to the head of the Tejuca and the west side of Devil's Canyon that was the scene of conflict yesterday, and over which the fire-fighters have now dropped slightly into the Tejuca.

It was reported last night from Mt. Wilson, which is the principal camp of the fire, that the fire was not then burning so fiercely near Twin Peaks and Mt. Waterman as it had burned formerly, but that it is by no means out. The fire, taken all in all, was worse yesterday than the day before, though last night it appeared to be under control.

G. J. Dunston, the United States ranger, who is stationed in the Arroyo Seco, and who returned from the fire to his own post last Tuesday, yesterday hastened back to the conflagration, taking with him all the men he could find.

Jack Wright, who, yesterday, started on a second trip to the fire from Sierra Madre, sent the following message from the West Fork telephone station:

"The fire is now heading west and south and creeping toward the head of the Tejuca and Pine Flat. The worst fire is on the west slope of Devil's Canyon. The fire on the east slope, near Twin Peaks, has died, but is not yet under control. A former ranger, who has had experience, was heard to say that he has never seen a fire under such circumstances handled so well as this one has been handled by Ranger Brownell and District Ranger Rosa. The men are working under great physical strain, but other men are now on their way to relieve them."

**MEXICAN IS STABBED.**  
Jose Romo, a middle-aged Mexican, who lives at No. 34 Center street, was stabbed in the left side and slashed on the left arm and hand at 7:30 o'clock last night while walking along the sidewalk on South Fair Oaks avenue, between Colorado and Green streets. His assailants escaped.

Romo cannot or will not give reason for the men setting upon him and sticks to it that they were white men, not Mexicans. He says that there were several of them and that they suddenly leaped upon him.

He was taken to the Receiving Hospital and then attended by Police Surgeon McCoy. Later he was taken to the Pasadena Hospital, where it was reported late last night that his condition was good.

**AWAIT CITY ATTORNEY.**  
City Attorney Carr, who has been in the East and who was expected to arrive in Pasadena yesterday, will not come until today, and the Councilmen yesterday made no definite determination what to do about the water bonds for which no bids were received last Tuesday. They will confer with him immediately he arrives. In all probability, however, more interest will be offered when the city again advertises for the sale of them.

Mr. Carr has been to Chicago and it is believed by the Councilmen that he may have information of importance regarding the attitude of eastern bankers and capitalists.

**NEW ORGAN.**  
All Saints Episcopal Church is planning the installation of a new pipe organ, which, while it probably will not cost as much as did the organ at the Presbyterian Church, will, by the leaving out of decorations until a later date, be the largest one in the city. The plans have not assumed definite form as yet.

**CITY BRIEFS.**  
Patrolman W. A. Woolen has tendered his resignation as a member of the police force. He intends to become a rancher near Riverside.

Chief Clifford of the fire department has completed arrangements for

the entertainment of the firemen who will visit Pasadena on a day of the coming annual meeting of the Pacific Coast Fire Chiefs Association, which is to be held in Los Angeles September 2 to 12. Mayor Thum and the members of the Board of City Commissioners will constitute the Reception Committee.

**PLANNING TO FLY TO LOS ANGELES.**

**INTERURBAN SPEEDER TO START SERVICE SUNDAY.**

Large Crowd Arranges to Take Initial Trip on New Electric Speeder—Interurban and Park Ordinances Adopted—Officers Elected by Congregational Church Class.

POMONA, Aug. 19.—Numerous local people are planning to make the trip to Los Angeles on Sunday over the new interurban line of the Pacific Electric Company, which will be formally opened for regular business on that day. The time card is already issued and provides for twelve trains daily, each way, between Los Angeles and this city.

The first car will leave Los Angeles at 8:35 a.m., arriving here at 7:05 a.m., and the last car at night will leave at 11:25, arriving here at 12:55 a.m. The first morning "flyer" will leave here for Los Angeles at 6:30 a.m., and the last car from here at 11:40 a.m., and the last car from Los Angeles at 8:40 o'clock.

The Los Angeles cars will stop at the following street intersections: Walnut, Orange, Grove, Main, Broadway, Second and Third streets. Passengers on the Pomona-Ontario-Upland line will be transferred at the Walnut-street junction. Superintendent Annable of the San Antonio division announced that a thirty-minute service will be maintained on the Pomona-Upland line, cars leaving here daily at ten minutes and forty minutes past the hour from 6:40 a.m. to 9:40 a.m., and from 11:40 a.m. to 6:40 p.m. An hourly service will be maintained between the hours of 9:40 and 11:40 a.m., and between 6:40 and 11:40 p.m.

**SIDEWALK ORDINANCE.**  
The City Council has just passed the sidewalk ordinance, which forbids placing obstructions in any street or alley or on any sidewalk within the district bounded by Palomares street, White, Holt and Fifth avenues. There is a provision, however, that if merchants and other delivering or receiving goods shall be allowed five hours for the removal of any goods laid on sidewalks.

The ordinance establishing rules and regulations for the government of Pomona parish has been amended so that it is now unlawful for anyone to loiter or remain in any public park here between the hours of 11 o'clock at night and daylight the following morning without first getting the permission of the park superintendent. The penalty for the violation of this is a fine of not to exceed \$200 or imprisonment not to exceed three months or both fine and imprisonment.

The Philatelic class of Pilgrim Congregational Church has elected the following new officers: Miss Flora Taylor, president; Miss Lucile Jones, secretary; Miss Ella Harding treasurer; Miss Jean Wood, reporter; Miss Beatrice Lee, chairman of social committee; Miss Ruth Bishop, chairman of volunteer committee.

**WATTS SCHOOLS IMPROVED.**

Twelve Teachers Selected for Coming Year—G.A.R. Would Advise During Encampment.

WATTS, Aug. 19.—The local schools are to open on September 9. A considerable new additional equipment has been received and put in place, and things are in good shape for the opening of school. The trustees have spent much time and effort to provide the school with the necessary facilities to make the work the coming term as successful as possible. Sanitation is a matter that has received due consideration and a manual training department will probably be added. A day nursery is being talked.

The teachers selected and their grades are as follows: Miss Cora Woolsey, eighth; Miss Ruby Johnson, seventh; Mrs. M. M. Donley, sixth; Mrs. Lela Ryan, fifth and sixth; Miss Lottie Wonders, fifth; Miss Bell, fourth; Miss Nellie Cross, third; Miss Emma Wonders, third; Miss Jennie Tweedy, second; Miss Mary Oxley, first; Miss Nellie Campanari, ungraded room; Miss Jennette Wrotenburg, primary grade.

A committee from the local G.A.R. met yesterday night with a proposition to get out some advertising literature. Their idea was that, in view of the fact that the National Encampment of the G.A.R. is to be held in Los Angeles early in September, it would be an opportune time to do some advertising in behalf of Watts and suggested that a booklet be gotten out. They had in mind getting out an edition of some 25,000 copies of about sixteen pages, on a fine grade of paper and handsomely illustrated with art. After discussing the subject, a motion was made that the chairman of the Council appoint a committee of five to confer with the G.A.R. committee and then report back to the Council at the next meeting.

## SEEK TO AVOID ILL-FEELING.

Compromise Ordinance Plan of Business Men.

Committee of Twenty-five Is Actively Engaged.

City Council Would Vote on Clean Health Sweep.

LONG BEACH, Aug. 19.—In the belief that the proposed initiative prohibition ordinance is entirely too drastic and will result in more blind pig than ever and consequent constant litigation, ill-feeling and turmoil, and realizing that its enforcement would mean the closing of Hotel Virginia and consequent disaster to the business interest of the city, a dozen prominent business and professional men met this morning, and started a movement for submission to the people a modified form of the present Pasadena ordinance.

The gentlemen agreed that the proposed charter should meet every essential demand of prohibition with this exception and along this line some legislation could be agreed upon that would meet all requirements and eliminate the ill-feeling.

It was decided to first seek a conference with the Church Brotherhood of the Pasadena, which is the only body of the city which is in a position to agree to a submission of an alternative ordinance at the same time as the more prohibitive measure and not stir up a hundred of dollars of election expense, but give the voters of the city a chance to express their real sentiments, which the advocates of the Pasadena ordinance contend do not contemplate the guilting of the business of one of the finest tourist hotels on the Pacific Coast.

The committee of twenty-five which is to investigate and report to the city upon the various needs of the city involving a bond issue of over a million, met last night in the presence of a conference with the Council Finance Committee regarding funds necessary to get engineering advice did not go beyond the appointment of sub-committees on the various subjects to be investigated. These committees are on finance, harbor control, sewerage, parks and city hall. An adjournment was taken until September 4 when it is expected the sub-committees will be ready to report.

Two thousand persons are expected here tomorrow on the occasion of the picnic of the Southern District Federation of Fraternal Brotherhood lodges of Southern California. Supreme President James A. Foshay and Supreme Vice President Mrs. Emma Neidig will be present with their associate State and supreme officers. A picnic lunch will be enjoyed at noon, followed by a programme of speeches and music.

At 3 o'clock a series of races and athletic sports will be pulled out on the beach. In the evening an exhibition by several drill teams of the uniform rank of the order will be followed by a grand ball in the auditorium at night.

The City Council met this morning to pass an amendment to the emergency health ordinance making proprietors of amusement places responsible for the gathering of children in blocks of five, but Council suddenly evinced a disposition to do away with the entire legislation which it is now admitted has cost the city more than \$10,000 in the unavoidable notoriety of a city free from disease legislation against it.

The amendment was lost by a vote of 2 to 3 and only that spot where it is needed to pass any ordinance prevented the repeal of the existing law. Advocates of the measure, however, are not discouraged and interests hope to secure the wiping out of the unwieldy law.

The City Council today fixed the tax rate for the year at \$1.301, which is 309 less than last year, the decrease being due to the fact that the support of the city for the year provided for in the regular budget.

The Charter Revision Committee has decided to postpone the managerial plan and will proceed on a charter amendment along this line of government. The decision is a distinct disappointment to the members of the commission government and it seems likely that there will be a falling off in attendance at the committee meetings and the work will be done by only a few. There are many tonight predicting that the effort to secure amendments will now dawdle along until too late for action by the next Legislature.

**PECULIAR HORSE STEALING.**

Man, Evidently a Fugitive, Leaves Exhausted Animal at Monrovia and Departs Hurriedly.

MONROVIA, Aug. 19.—Horace J. Evans of White Oaks avenue, this city, a morning the loss of a horse and the trying to become acquainted with the peculiarities of another animal he acquired yesterday in a most unusual manner.

While Evans was at lunch some one rode up to his place hurriedly and dismounted and after taking the middle and bridle from his mount put it on Evans's horse and rode away. Officers were notified and gave chase, but did not succeed in capturing the thief. They incline to the view that the man was running away from officers and after his horse became exhausted decided to make a swap to facilitate escape.

## GOLD ORE FOUND AT LAST.

Years Through Holcomb Valley.

Mau Senseless Mountain Trail.

Squeezing Out Purple Torrents.

SANTA BARBARA, Aug. 28.—

The first rain of the season fell here this afternoon, the precipitation amounting to .04. At Redlands and other valley points the rain amounted to but a mere trace.

On the mountains a drenching for prevailed during the day. At Pinecrest the dripping from trees gave the sound of rain on the cabin roofs. No damage to crops is anticipated though heavy rains just now would result in severe loss to vineyards.

TUGS TOW ROSECRANS.

Fire-Gutted Oil Steamer to Be Taken North for Repair—Has Many Names.

SANTA BARBARA, Aug. 28.—

[Exclusive Dispatch.] Under tow of the tug Dedanah, which is due from San Francisco tonight, and the Navigator, which arrived on the scene this afternoon, the hull of the oil steamer Rosecrans, gutted by fire near the Alcatraz pier, will be taken to San Francisco tomorrow night for repairs. A preliminary examination today showed that the fire had been confined to the boiler and engine-rooms, all above the water line. The estimated damage is \$75,000.

Walter Buck, marine manager for the Associated Oil Company, and Fred Trist, construction manager arrived at Gavilota this morning from San Francisco, intending to institute an investigation to determine the cause of the explosion in the forward tank of the Rosecrans, but they discovered the interior of the boat still a seething furnace and their probe was delayed. The explosion of accumulated gases is believed to have been the cause.

The steamer was brought near the pier and all day several streams of water were played on the burning material, but the temperature had not been much reduced by nightfall.

The most intense heat was found midship about the engine-room. Here there were more than eight tons of coal and with an oil soaking it burned fiercely. In fact, that heat was so great that seamen declare the temper of the metal sides has been drawn out and they say it will be impossible to ever use the hull for commercial purposes.

The Associated Oil Company, however, are determined to lift the junk for the craft and it was said today that if it is successful in reconstructing her, a new appellation will be given her. Since she was built at Glasgow, Scotland, more than thirty years ago, this boat has been known by several names, the original one being the Methven Castle, then she was called the Columbia, again the General Rosecrans, after which she was purchased by the oil company, which dropped the "General."

This morning it was learned that all of the pets of the boat had been saved from the flames. Late Tuesday night, Capt. L. F. Johnson rescued the parrot after it had been soaked with oil and before morning seamen boarded the helpless craft and rescued three little kittens. They had been fearfully singed, but were as spry and playful as ever.

The Associated Oil Company officers were congratulating themselves today over the fact that the Alcatraz pier and other property of the corporation did not meet the fate of the Rosecrans. It was said that if the boat had not been cut loose from her moorings when she was, the fire undoubtedly would have spread to the pier and then maybe to the shore, where hundreds of thousands of dollars worth of buildings and tanks would have been endangered. Oscar Reedland, the injured seaman who jumped from the forecabin, is reported dying in a local hospital.

The new Waverly electric colonial brougham is the most beautiful car ever made. H. O. Harrison, 1218 S. Main.

MAY LEFT BAN SOON.

From present indications it seems probable that the Board of Health will be able to revoke the order requiring that all children under the age of 15 years refrain from attending theaters and Sunday-schools, or frequenting public parks or other public places. No cases of infantile paralysis have been reported here since the 15th inst., and the City Health Officer is of the opinion that practically all danger is past. If no new cases develop the public schools will open in accordance with schedule.

HEAVY BALLAST CAUSES DELAY.

RAILWAY ASKS MORE TIME TO EXTEND ITS TRACKS.

Liquor Cases to Be Tried by Superior Judges Instead of Justices.

Investigation Amended Investigated and Found to Be Good—Amusement Center to Be Instituted.

RIVERSIDE, Aug. 28.—The Pacific Electric has been compelled to ask an extension of time in regard to the ballasting of its tracks on Magnolia avenue, because the work on the big fill over the Terquente arroyo, which will make possible the extension of Magnolia avenue to the heart of the city, has been delayed beyond the original estimates.

To haul the rock and steel necessary to rebuild this seven miles of line, the company finds it will be impracticable to use the present Brockton-avenue line, which reaches the head of the avenue by a dip down into the deep arroyo.

It is estimated that in the neighborhood of \$100,000 will be expended in rehabilitating this line, which will some day be one of the electric arteries by which Riverside will have trolley connection with Los Angeles by way of Corona and La Habra.

NEW LAW IN FORCE.

Hereafter liquor cases that have been tried before justices of the peace will be heard in the Superior Court, so far as the Fifth Supervisory District is concerned. The proposition of local option under the new law was presented to the voters of that district on May 14 and a majority vote was in favor of its adoption.

CITY JAIL UNHAPPY.

Under direction of City Health Officer Griffith, Building Inspector Gifford has viewed the plumbing in the City Jail and pronounces it unsatisfactory. Lack of proper quarters in which to incarcerate "respectable" citizens whose appetites for strong liquor occasionally get the better of them, was one of the arguments used in the bond campaign for a new City Jail. The Board of Health will probably order the plumbing renewed and the place fumigated.

AMENDMENT FAVORED.

Satisfied that the proposed Senate Amendment No. 2, designed to safeguard the organization of irrigation districts and to protect the bond-buying public from wild cat schemes which in the past have brought much loss to investors, the Executive Committee of the Chamber of Commerce today appointed a committee to bring before the directors some recommendations relative to furthering the interests of the measure. The committee consists of E. S. Moulton, Francis Cottle and Dr. C. Van Zwanenburg. The matter was brought before the Executive Committee by A. L. Cowell of Modesto, who represents the Irrigation Districts' Association of California.

AMUSEMENT PROJECT.

At a meeting of the Executive Committee of the Chamber of Commerce today it was decided to bring to the attention of the City Council the desirability of using the city's vacant lot opposite the Glenwood Mission Inn for a public amusement place. H. A. Hammond, who declared that Redlands, Pasadena, Long Beach, Pomona and other cities had made a great success of such projects, volunteered to assume the management of an amusement center here. In his opinion \$500 would fit up the city's vacant lot for such games as croquet, quoits and the like, for the benefit of visitors and others who find time heavy on their hands.

## Rules That Will Govern The Times Booklovers' Contest

The contest is open to everybody. Only Times employees and members of their families are barred. Daily for 77 days will be published in The Times a picture representing the title of a book, one each day. Beneath this picture will be a coupon to fill in with the name of the book and the author, together with name and address of entrant.

Out on the picture and coupon, filling in the book title and author's name, writing your name and address neatly and plainly in the place provided.

No restrictions are placed on the manner in which answers to pictures are secured. Each picture represents the title of one book only. If you are not certain of your solution you may send in one to ten answers to the picture. NO MORE THAN TEN ANSWERS WILL BE ACCEPTED TO A PICTURE. Incorrect answers will not count against contestant if correct answer is also given. And put one answer to each picture and coupon. Extra coupons must be secured and used for extra answers. All answers to each picture must be kept together in completing your set.

Additional pictures and coupons may be obtained at The Times office, by mail or by person. Answers will not be accepted unless they are properly filled out on the coupons appearing beneath each picture. It is necessary that pictures be sent in with the answers in order that all answers may be uniform.

When you have all 77 answers, fasten them together and bring them or mail them in a neat flat package—not folded or rolled—in The Times office, addressed "BOOKLOVERS' CONTEST EDITOR." Prizes will be awarded contestants sending in the largest number of correct solutions. In the event of two or more persons having the same number of correct solutions, the person using the smallest number of extra coupons in the set of answers will be declared the winner. In event of two or more persons having the same number of correct solutions, and using the same number of coupons, an equal interest in the prizes tied for will be given to each of the tying contestants, or the persons involved in the tie may choose any one of the other lesser prizes.

More than one prize will not be awarded to any one family, but each member of the family may enter the contest and submit a complete set.

Only one complete set (comprising not more than 10 answers to any one picture) of answers may be submitted by a contestant. Awards will be made strictly according to the merit of each separate list. The names of more than one person must not be written on any one coupon.

All answers will be considered on their merits. The first set filed will have no preference over the last set filed; provided only that answers must be filed within the time specified after the last picture has appeared.

The awards will be made by the Contest Editor and three well-known citizens whose names will be announced later.

The correct answers to the series of pictures will be filed with a local trust company or bank a week previous to the close of the contest.

Entry to the contest may be made at any time. All communications or letters of inquiry concerning the contest should be addressed to the Booklovers' Contest Editor, The Times.

Man Alleged to Have Been Concerned in Murder and Robberies Makes Bold Declaration.

"I'll never leave this jail alive. I'll hang myself in my cell. But I won't do it until I've listened to the evidence you have against me."

Joe Valdes made that boast in Police Judge Rose's court yesterday. Detective Talamante says Valdes confessed to him that he is one of the two men who killed and robbed Martin Avalara in a room in Lopez court on the night of the 19th inst.

Valdes was taken into court yesterday to be arraigned on a charge of highway robbery. After his arrest on suspicion of the Avalara murder, he was robbed of \$15, a watch, chain and other articles. That crime was committed the night before Avalara was killed.

"Valdes declares he will not give the name of the man who helped him kill Avalara," Talamante said yesterday. "He says he'll hang first."

Valdes declares he is but 20 years of age, and was born in Clinton, Ark. His family has been communicated with.

### GREAT CONCERN DOSES.

Hudson Bay Company Unable to Extradite Fletcher—His Representative Seeks Court.

The Governors and Company of "Adventurers of England," popularly known as the Hudson Bay Company, lost its case yesterday against Arthur Bernard Fletcher, whose extradition was sought on the ground that he had procured credit from the company under false pretenses. United States Commissioner Van Dyke made an order discharging Fletcher from custody and denying the application for the order of extradition. Fletcher and his wife and baby are in Venice, and he has a place in a grocery and is doing well.

The opinion of the commissioner was that Fletcher had not been proved guilty of an extraditable offense; that the issue of fraud, if proved, was not covered by the existing treaty between the United States and the English government. The commissioner also took occasion to grill Manager McLean of the Hudson Bay Company, who, the official alleged, allowed Fletcher to remain in Vancouver for two months after the commission of the act complained of without making any effort to apprehend him, and that he even offered to back him in a future mercantile venture.

Fletcher was for two years in business in Vancouver. Being in financial difficulties, he made an assignment of his book accounts to the Royal Bank of Canada, to cover a debt due that institution. It was in evidence that the bank had collected about all that was due when Fletcher made that assignment. It was proved to be another assignment of his book accounts to the Hudson Bay Company, to cover a debt of about \$1000 due the corporation. After that assignment the Hudson Bay Company extended him credit and he purchased goods to the value of \$3400 which he failed to pay when his business failed. It was alleged that Fletcher had made two assignments of the same accounts; that the second was fraudulent and made to secure credit.

# A STRAIGHT OPEN LETTER TO CONGRESSMAN STEPHENS.

THE FOLLOWING straight open letter asking a pointed question of Congressman Stephens was sent yesterday with the hope that he may see fit to candidly set out his attitude in reply:

LOS ANGELES, Cal., Aug. 28, 1912.

HON. WILLIAM D. STEPHENS, City.

Dear Sir:—Are you seeking the nomination as Congressman from the Tenth District as a Republican or as a Progressive? If as a Republican it means that you are a faithful supporter of the Republican nominee for President, William Howard Taft. You are registered as a Republican and have taken an oath that you intend to affiliate with that party at the next general election.

It has come to my attention that you are publicly and privately working for the success of the candidates of the so-called Progressive party and are doing all in your power to defeat the Republican candidate in the State and nation. I do not question your right to leave the Republican party and give your vote, your influence and your labors to another party, whether Progressive, Democratic or Socialist, but emphatically question your right to masquerade as a Republican while actively working to disable and wreck that party.

If you seek the nomination as a Progressive, why do you pretend to be a Republican? Political honesty demands one or the other answer. If you are no longer a Republican why not come out plainly and say that you have deserted the party to follow the destinies of the new party?

Col. W. H. Holabird, who is seeking the nomination on the Republican ticket for Congress in the Tenth District, believes in the platform and principles of that party and is earnestly supporting President Taft for reelection. It is not fair to him that you remain in the race as a Republican unless you intend to support the Republican policies and candidates.

In the name of nearly 100,000 registered Republicans in the Tenth District, I demand that you publicly state your position on this vital and important matter.

Yours truly,  
VINCENT MORGAN,  
Chairman of the Campaign Committee of the Republican Club of Los Angeles City and County.

Miss Allen came South to be present at the pre-nuptial parties given for Miss Borden, who will wed Lieut. Irving Hall Mayfield in October.

**MR. E. E. PACKARD** of South Burlington, Vermont, announces the engagement of his daughter, Miss Mary, to Lieut. Fred C. Wallace, United States Army. Miss Packard's betrothed adds another to the number of announcements that have been made in the younger set during the summer. Lieut. Wallace is the son of Mr. and Mrs. Percy Wallace of Washington. He is a graduate of West Point. Miss Packard has chosen September for her wedding, which will be a quiet one, owing to her recent illness.

**MISS BORDEN.**  
Young women of Miss Juliet Borden's bridal party were honored guests yesterday afternoon at a luncheon party at the Majestic given by Mrs. Roy Brooks King, No. 181 Hollywood boulevard. Later tea was served at the Alexandria from a table fresh with delicate pink sweet flowers and foliage. Interesting games were played and prizes fell to Mrs. Bonnie Shilley, Rodger Bates and Clarence O. Edwards. A home wedding of interest to many was solemnized at the residence of Mr. and Mrs. A. A. Reed, No. 700 East Forty-first street, recently, when Miss Amy Smith and Floyd J. Rickard were united in marriage by Rev. George W. Morris. Little Ruth Rickard, sister of the groom, carried the ring on a silver tray, and Miss Pearl Maynard in a pretty creation of fluffy material, assisted as maid-of-honor. The bride-elect was attired in hand-embroidered cream-colored satin. Mr. Rickard was attended by Jack Marlow. The home was a bower of white and green, with fragrant blossoms and ferns.

## HIS DUTY TO GIVE ADVICE.

Pastors Indorse Act of an Accused Clergyman.

Court Releases Him on Writ of Habeas Corpus.

He Passes Hours in Jail on Account of Letter.

When is a minister justified in writing a personal letter to a feminine member of his congregation containing advice, admonition, counsel or any one of the many things that fall within the province of a spiritual guide? This rather curious and complicated question has been brought into the courts of Los Angeles and at the same time it is made a topic of discussion by a number of ministers who are interested in the ethical phase of the question involved. A letter written by Rev. F. D. Gardner of St. Paul's Episcopal Church South, is a staunch defender of Dr. Gardner's action in writing the letter. Together with several other ministers he was in Judge Willis's court yesterday for the purpose of lending support to the accused pastor. When is a minister justified in writing a letter to a woman member of his congregation which should be observed by ministers in writing advice to the feminine members of their congregations? "I know that Dr. Gardner is perfectly right in this matter. He did what he thought was right. He was called on for suggestions and he gave a certain thing by a woman member of his congregation and he repeated the letter to the ladies of his congregation and finally the entire affair looked so serious that Dr. Gardner's health was in two months. He is 60 years of age, a fine type of a pastor, and he could not stand the strain. He wrote a letter to me and I understood it. I simply answered him and he wrote the letter which caused his arrest. The letter, as I understand it, simply answered his letter and he wrote the letter to let the matter drop and say nothing more."

**A STAINFUL DEFENDER.**  
Rev. R. H. Bradford, pastor of St. Paul's Methodist Episcopal Church South, is a staunch defender of Dr. Gardner's action in writing the letter. Together with several other ministers he was in Judge Willis's court yesterday for the purpose of lending support to the accused pastor. When is a minister justified in writing a letter to a woman member of his congregation which should be observed by ministers in writing advice to the feminine members of their congregations?

**TO THE MORE NEEDY.**  
Second Wife of Alleged Bigamist Wants His Securities Given to First Spouse, Defendant.

The spirit of self-sacrifice in a devoted second wife was demonstrated yesterday to Deputy District Attorney Hammond when Mrs. John A. McDonald of Long Beach, nee Florence B. Fisher, asked that all her husband's property be given to his first wife, who is bedridden in Oakland.

**DUTY TO ADVISE.**  
The word pastor means shepherd, said Dr. Locke. "There is not a day passes that a pastor does not give advice to the members of his flock. He gives advice when it is sought in his duty, when he sees a member of his congregation walking with 'unsteady steps' to try and lead that person into the right path where he can walk firmly and confidently."

**NO CRIMINAL INTENT.**  
On account of failure of the prosecution to present evidence of criminal intent Justice Forbes dismissed yesterday the charges against C. G. Carlson at the instance of A. E. Krier of having obtained money under false pretenses. Carlson recently sold the business of the California Souvenir Company to Krier for \$10,000. Krier alleged that Carlson's representations as to its value and profits were false.

**KE'S STILL ABSENT.**  
Special Patrolman Pete Protte of Venice failed to appear before the grand jury yesterday and the hearing on the detention by the Venice authorities of four detectives from the District Attorney's office came once more to a stop. A detective from the District Attorney's office passed part of the day investigating Protte's illness, and several witnesses from Venice were called before the jury.

The slice that's nice

There is but one piano today which sings as sweetly to the highest ideals of artistic piano construction—but one piano which has never been enhanced its position commercially by the building of miniature grand pianos to meet the competition of low price, nor felt the necessity of installing a piano player in its instruments in order to make the market for its products.

## The Mason & Hamlin PIANO

is the one perfect piano of today—the one which meets, unflinching, every demand made by the most critical musician, across the wide admiration of the most exacting critics; which, by the nobility, resonance and majestic quality of its tone, is winning new admirers, making new converts, building a home in the hearts of lovers of the truly artistic, and has created a demand that is the marvel of the music trade.

Mason & Hamlin pianos invite severe comparison, yet recognize no competition. In their better made, embodying in their construction the finest materials obtainable, and because their patented features Mason & Hamlin pianos cost more than other pianos, yet so superior in quality, so perfect their architectural design, so beautiful their finish, that the additional cost is doubly justified.

All styles of Mason & Hamlin Pianos are shown at our stores, and are sold on easy payment plans, when desired.

SIGN M'CAFFERTY TO FINISH GAMES.

Charles McCafferty, former member of the Detroit pitching staff, yesterday placed his signature on a Los Angeles contract, and is expected to be a fixture with the Seraphs for the remainder of the season.

The addition of McCafferty is believed to give Berry the largest pitching staff in the country. He now has ten pitching people on his payroll as follows: Chech, Slagle, Levere, Hall, Toser, Marks, Vernon, McCafferty and Parritt. The latter is the only one not present. He is expected in today.

McCafferty will fill the unique position of "finisher-up," or as Berry says, "Finish-apper."

His sole duty will be to keep warmed up for relief purposes. At no time will he be asked to start a game. The instant one of the regulars files the distress signal, McCafferty will be sent to the rescue. The new man was with Detroit in 1905 and 1906, and was in the International League as a member of the Newark and Toronto clubs for four years. He managed Butte this season until it went out of business for lack of finances. McCafferty is a finished pitcher, and should prove a source of strength to the Seraphs.

TOMMY M'CREARY TO COACH MANUAL ARTS IN FOOTBALL

WHERE TOMMY M'CREARY, having tried his hand at about everything else he could think of, has now decided to cast his lot with the coaches and endeavor to produce a winning rugby team this year, the scene of his efforts to be at Manual Arts High School. Tommy for two years was well known in Southern California athletic circles while with the University of Southern California.

His first college year he was registered in the law school and managed between times to land a job on the football, track and baseball teams. He was a great little field general and was picked both years as all-southern quarterback. He played in the outfield on the baseball squad and sprinted and broad jumped on the track team.

He ran the 100 in about 16.1, and broad jumped more than 21 ft., managing to grab a couple of first places against the northern universities. Last year he decided to cast his lot with the boys of Stanford University, and to that end, attended that institution. He was ineligible for the university teams owing to the one-year residence rule, and therefore he joined the Olympic Club of San Francisco.

Built almost ideally for rugby he took to it like the proverbial duck and soon had the assembled multitude on their cyphers with delight at his lightning dashes down the sidelines from his position as wing three-quarter. He played on the club team and in general inter-fraternity games until he was unfortunate enough to wrench his back in a manner that forbade his competing again.

Not being able to do anything further in an athletic line, he left school and soon created a sensation by getting married. Since then he has gone into business, and now proposes to put out a rugby team which will go down into history. The Manual Arts boys were rather easy marks last year for the other schools, but with the added experience and Tommy's long write for bookies—TWO POINT HUNTING—before the season is very far gone.

SEALS DEFEAT OAKLAND IN FOURTEEN INNINGS.

(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)

SAN FRANCISCO BUREAU OF THE TIMES, Aug. 28.—(Special Dispatch.) The Seals outgamed the Oaks today in a bitter contest of fourteen innings, which was punctuated by many thrilling plays. It was one of those exhibitions which kept the fans on their feet for the last few innings as they could never tell what was coming. The end came in the fourteenth when McAvoy, the recent acquisition to the Seals' staff, hammered the ball out of the lot.

Corban was waiting for assistance. Under ordinary circumstances the hit would have counted for a homer but as a hit was all that was necessary to win the game it would go down on the records as a two-base hit. The same chap, McAvoy, was in sympathy with the crowd. It was his turn to bat in the eighth frame while Cook was on second that allowed the Seals to score the only run of the game. Who Has Had Experiences in  
Plenty Along that Line.Scott Palmer, who handles the  
Pantages shows at Spreckelsland-  
the-harbor, boats the one and only  
automobile advertising car in South-  
ern California. Palmer spends his  
time between trips to the bank in  
touring the country and decorating  
the landscape with the name of  
Pantages.Early this week he decided to ex-  
tend his operations somewhat further  
afield and after investing in a bunch  
of automobile maps, announced his  
intention of piloting the Pantages ad-  
vertising car to Los Angeles.With a stack of advertising cards,  
a bundle of one-three-and-eight  
sheets, and a hamper of San Diego's  
most famous product he started  
Los Angeles on Tuesday morning.  
All went well until the party was  
nearing Santa Ana, when Palmer  
noticed a large and inviting barn in  
the middle of a spacious field."What a corking billboard!" he ex-  
claimed.The theater managers here must  
be asleep or dead, to have overlooked  
such a gaudy location."Watch me cover it with the name  
of Pantages Vaudeville," he said.  
Then he dug up three eight, a  
couple of threes and a bundle of cards  
and transported them, by deputy, to  
the scene of the proposed operation.Returning to the car, he secured a  
large and strong-smelling bucket  
of paint. Likewise a brush.All was merry as a marriage bell  
when there appeared on the scene a  
tall and lanky lecher with a corn-  
cob pipe firmly held between his  
upper and lower jaws."What ye doin' here, got dern ye!"  
Numbers were three to one in favor  
of the blitherers. Also Palmer had  
run many a bluff before."Get permission from the owner to  
put up some paper on this barn," he  
replied."Get permission from the owner,  
hey ye?""Sure," agreed Palmer, thinking he  
was making good his guess. "Go  
ahead, boys, get the paper up."The long and lanky one disappeared  
within a near-by cow shed, and the  
murderers proceeded to forget him.From the heavenly heights of de-  
scribing their neighbor's walls with  
red and blue lithographs they weresuddenly recalled to things mundane  
by a warning shout.They turned to see the cow-shed  
door slammed shut in the face of a  
big brindle bull who, foiled in his  
attempts to get at the farmer, im-  
mediately directed his attention toward  
the hill-posters.Palmer and his associates in crime  
grabbed their paste, their brushes  
and their paper and beat it for the  
highway.From the window of the cow-shed  
the lowman leaned forth and  
shouted his derision at the enemy."Get permission from the owner,"  
he yelled. "Got dern ye, tell that to  
the bull!"The bull, however, did not seem

TO BIG LEAGUES.**(BY A. P. NIGHT WIRE TO THE TIMES)  
CINCINNATI, Aug. 28.—The Na-  
tional Baseball Commission today  
gave out the list of players whose  
leases have been purchased by  
major league clubs since August 26,  
1911. Twelve agreements approved by  
the commission. The list does not  
include players recalled by major  
league clubs on August 26, 1912, on  
the option of the agreements. The list  
given out today follows in part:National League—By Cincinnati  
from St. Louis Americans, Phil; Phil-  
adelphia Phillies, Humphrey; St. Louis  
from Portland, Menor.American League—By St. Louis  
from San Francisco, Tennant; Cleve-  
land from Portland, Kibbe and Mc-  
Dowell; (agreements not received and  
therefore subject to approval.)The commission made regulations  
to facilitate the enforcement of the  
national agreement restricting the  
number of players a major league  
club may carry on its annual reserva-  
tion list to thirty-five exclusive of the  
manager and of the players proman-  
dated as ineligible.**DE PALMA BREAKS RECORD.**Lovers Totaled Mark in Trousers

Him.(By Federal Wireline Line to the Times)  
ELGIN, (Ill.) Aug. 28.—Ralph De  
Palma in his Mercedes today lowered  
Teddy Tattler's record for the trial  
for the big Elgin races which start  
tomorrow. Tattler negotiated the  
lap in 6:55.21. A record for the  
course. De Palma today cut the time  
to 6:53.21. Ten thousand people  
scattered along the course witnessed  
the record-breaking run.The oiled road had been put in the  
best possible shape by the early  
morning rains. One crash occurred  
today, two machines coming together  
head on. The drivers were thrown  
to the roadway but neither sustained  
injuries.**MAY REFEREE FLYNN FIGHT.**SAN FRANCISCO, Aug. 28.—Jim  
Griffin is talked of as a referee for the  
Labor Day bout between Charles Mil-  
ler and Jim Flynn at Pueblo. Griffin  
has a pluck of his own for starting and  
finishing the rounds. "You know Mil-  
ler was a motorman," he says. "Give  
him two bells to start and one to stop.  
He'll show automaticity."**LA BRQ CAS**

DAILY BEAUTY HINT: More and  
more women are preserving a  
healthy skin. This does not mean that  
they are using a lot of cosmetics,  
but that they are using a lot of  
common sense. The skin is the  
most important part of the system, and  
it can be no beauty without good skin.**WOMEN**  
There are few who do not think  
that their skin should be perfect.  
They want it to be smooth, clear,  
and free from all blemishes. They  
want it to be as beautiful as a  
flower. They want it to be as  
healthy as a horse. They want it  
to be as strong as a lion. They want  
it to be as brave as a warrior. They  
want it to be as wise as a philosopher.  
They want it to be as good as a saint.  
They want it to be as great as a god.**WOMEN**
